Minutes

PART 1 – Ordinary meeting

1. Welcome and CORS news

No additions to today's agenda.

- Welcome to new PhD students Mathias Møllebæk and Asbjørn Nøhr-Nielsen. Mathias and Asbjørn presented themselves.
- Annual report will be finalized in Q2
- Spring event March 27. Delegation from Fudan University will be visiting. Two-hour symposium in collaboration with BioPeople will be organized. [Agenda is available online:](http://pharmacy.ku.dk/calender/events-2017/research-and-education-in-regulatory-science-symposium/)

2. Annual conference / research seminar (Autumn one-day event)

- Date: first week of October (3,4,5 October)
- Location: Mærsk tower
- Scientific committee: Birthe, Timo, Merete + CORS-reps (Christine+ Mathias/Asbjørn)
- Topic: TBD. Committee will return with suggestions.
- Prelim. setup: 2 or 3 keynote speakers + submitted abstracts of ongoing projects.

3. Assessment of PhD project proposals

Based on the assessment form (email of 18th feb.) the final discussion and agreement on which of the four project proposals to recommend proceeded.

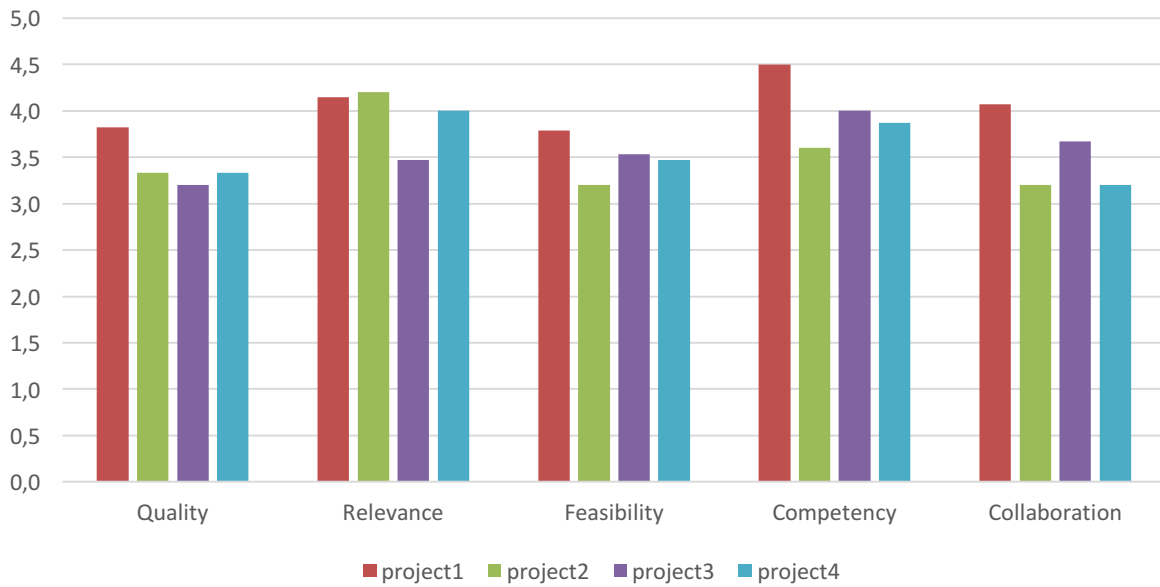

Based on the individual assessment by SAB members and discussion at the SAB meeting, it was decided by consensus to recommend project proposal 1. This project was given an average score of 20,3 / 25 points, being >2 points higher than the other 3 projects. In addition, the project scored highest on subscores for quality, feasibility, competency and collaboration and was 'head-to-head'- second on relevance subscore (according to the assessment criteria in evaluation of CORS funded projects http://pharmacy.ku.dk/research/cors/dokumenter/Evaluation-of-CORS-research-projects_june_2016.pdf) Furthermore, this project was the most favorite project for 8/17 SAB members, a clear favorite compared to the other project (below are two compilations of average subscores and rankings). All project applicants will receive feedback from SAB individually.

4. AOB

- Date for autumn SAB meeting decided: Friday 15th September 13.00-16.00.
